"Have you ever found yourself stretched too thin? Do you simultaneously feel overworked and underutilized? Are you often busy but not productive? Do you feel your time is constantly being hijacked by other people's agendas? If you answered yes to any of these questions, the way out is the way of the Essentialist. Essentialism isn't about getting more done in less time. It's about getting only the right things done. Only once we

discern what is absolutely essential and eliminate everything else can we make our highest possible contribution toward things that truly matter. By forcing us to apply more selective criteria for where to spend our precious time and energy, the disciplined pursuit of less empowers us to reclaim control of our own choices, instead of giving others the implicit permission to choose for us. Essentialism is not one more thing to do. It's a whole new way of doing less, but better, in every area of our lives"--Back cover.

overwhelmed by the hard things in life, but lately doesn't it seem like we're feeling this way a lot more often than we used to? The problem isn't a lack of motivation or effort, but that motivation and effort are limited resources. The more we deplete them, the more burnt out we get, making it even harder to produce the results we want. In 'Effortless', Greg McKeown show us how to make essential tasks easier so that we can accomplish more of what matters, without burning out. From the author of 'Essentialism'.

lessons of his life as he did—and to see that the point was never to win, but to understand.”—Mark Manson, author of *The Subtle Art of Not Giving a F*ck* I’ve been in this life for fifty years, been trying to work out its riddle for forty-two, and been keeping diaries of clues to that riddle for the last thirty-five. Notes about successes and failures, joys and sorrows, things that made me marvel, and things that made me laugh out loud. How to be fair. How to have less stress. How to have fun. I found stories I experienced, lessons I learned and forgot, poems, prayers, prescriptions, beliefs about what matters, some great photographs, and a whole bunch of bumper stickers. I found a reliable theme, an approach to living that gave me more satisfaction, at the time, and still: If you know how, and when, to deal with life's challenges—how to get relative with the inevitable—you can enjoy a state of success I call "catching greenlights." So I took a one-way ticket to the

Overthinking isn't a personality trait. It's the sneakiest form of fear. It steals time, creativity, and goals. It's the most expensive, least productive thing companies invest in without even knowing it. And it's an epidemic. When New York Times bestselling author Jon Acuff changed his life by transforming his overthinking, he wondered if other people might benefit from what he discovered. He commissioned a research study to ask 10,000 people

if they struggle with overthinking too, and 99.5 percent said, "Yes!" The good news is that in Soundtracks, Acuff offers a proven plan to change overthinking from a super problem into a superpower. When we don't control our thoughts, our thoughts control us. If our days are full of broken soundtracks, thoughts are our worst enemy, holding us back from the things we really want. But the solution to overthinking isn't to stop thinking. The solution is running our brains with better soundtracks. Once we learn how to choose our soundtracks, thoughts become

If you can doubt, you can dominate. If you can spin, you can soar.
