The substantial capacity test is the insanity defense created by the Model Penal Code. The Model Penal Code was completed in 1962. By 1980, approximately half of the states and the federal government adopted the substantial capacity test (also called the Model Penal Code or ALI defense) (Rolf, C. A., 2010). However, in 1982, John Hinckley successfully claimed insanity using the substantial capacity test in his federal trial for the attempted murder of then-President Ronald Reagan.
