Everyone disagrees on some things; this is inevitable. The question is, how can we disagree with those we love but increase the odds that we will live and love to fight another day? In other words, how can we fight fair? In this companion to *One of Us Must Be Crazy... and I'm Pretty Sure It's You* (a treatise on making sense of the differences that divide us), Tim and Joy Downs aren't playing around. This time they concentrate less on how to make sense of our differences and more on winning at conflict without losing at love. When couples fight, tempers flare, tongues loosen, and behavior occurs that can cause major damage to the relationship. *Fight Fair!* teaches couples how to have healthy disagreements. It is a candid and realistic "rulebook" for married couples to ensure that their conflict is God-honoring

The "Just the Tools" edition of "Conflict Resolution for Couples" is an abbreviated version of Paul Shaffer's first book, "Conflict Resolution for Couples" - originally published in 2005, and then re-published in 2011. This leaner edition "cuts to the chase" of couple's conflict resolution, without the foundational and special population sections that made the original book a much meatier but time-consuming work. "Just the Tools", while a stand-alone title, also serves as a companion book to Paul's "Top 10 Marriage Essentials" published in 2014 (and the "Top 10 Dating Essentials" projected for 2015). It retains the same comprehensive, easy-to-understand, and logical progression found in the original. This book consists of essentially two parts: Part I is about the tools for resolution. It presents a model for managing conflict and itemizes 26 guidelines (the ABC's of conflict resolution) for identifying, validating, processing and resolving issues. Part II discusses
