Shortly after leaving the Alpha et Omega (MacGregor Mather's reformulation of the Hermetic Order of the Golden Dawn), Paul Foster Case developed a lecture series entitled "The First Year Course". The purpose of the lectures was to provide students with a firm foundation in spiritual science and practice and to prepare them for Paul Case's rendition of the Golden Dawn Order. When this coursework was expanded in 1924, the contents of the "The First Year Course" became known as Section A, 'The Life Power', and Section B, 'The Seven Steps of Spiritual Unfoldment'. 'The Life Power' provided a firm foundation of Occult Fundamentals and the 'The Seven Steps of Spiritual Unfoldment' utilized the Major Arcana of

the Tarot to communicate the stages of Spiritual Evolution. The early writings of Paul Foster Case are exceptionally clear and represent some of his finest work. Anyone approaching these lessons for the first time are encouraged to spend at least two weeks on each before proceeding to the next. This is precisely the manner in which the lectures and lessons were intended to be assimilated. Paul Case utilizes images in addition to words to communicate principles. Proceeding in such a manner will allow the corresponding ideas to take root and mature and thus facilitate understanding of the next lesson in the series.

In *Christianity in the Making*, James D.G. Dunn examines in depth the major factors that shaped first-generation Christianity and beyond, exploring the parting of the ways between Christianity and Judaism, the Hellenization of Christianity, and responses to Gnosticism. He mines all the first- and second-century sources, including the New Testament Gospels, New Testament apocrypha, and such church fathers as Ignatius, Justin Martyr, and Irenaeus, showing how the Jesus tradition and the figures of James, Paul, Peter, and John were still esteemed influences but were also the subject of intense controversy as the early church wrestled with its evolving identity.

This groundbreaking book is the first to look at administration and administrative law in the earliest days of the American

republic. Contrary to conventional understandings, Mashaw demonstrates that from the very beginning Congress delegated vast discretion to administrative officials and armed them with extrajudicial adjudicatory, rulemaking, and enforcement authority. The legislative and administrative practices of the U.S. Constitution's first century created an administrative constitution hardly hinted at in its formal text. Beyond describing a history that has previously gone largely unexamined, this book, in the author's words, will "demonstrate that there has been no precipitous fall from a historical position of separation-of-powers grace to a position of compromise; there is not a new administrative constitution whose legitimacy should be understood as not only contestable but deeply problematic."
