While Laura Ingraham was walking through a Northern Virginia shopping mall one Saturday afternoon, it all became clear to her. Everywhere she turned, she saw signs of the impending disaster: zombie teens texting each other across a café table; a man having his eyebrows threaded at a kiosk; a fiftyish woman shoe-horned into a tube top and skinny jeans; and a storefront ad featuring a Victoria's Secret model spilling out of her push-up bra and into the faces of young passersby. Ingraham wondered to herself, "Is this it? Is this what our forefathers fought for? What my parents struggled for? I wonder if Victoria's Secret is still having that two-for-one sale?" A menacing force surrounds us. We see it, we feel it, we know it. The country we love is in grave peril. While politicians and "experts" prattle on about the debt crisis at home, and terrorism abroad, a more insidious homegrown threat is emerging. It endangers our future and undermines our present. The uncomfortable truth is: We have become our own worst enemy. The culture we have created is now turning on us. We're on the verge of drowning in our ignorance, arrogance, gluttony . . . can you believe there are only three shots of vanilla in a Caramel Macchiato?!? Now in an act of patriotic intervention the most-listened-to woman in talk radio casts her satirical eye

upon all that ails American society. In this sharp-witted, comic romp, Laura Ingraham takes you on a guided tour through ten levels of our cultural hell. You know we're in trouble when . . .

- Airplane seats shrink—just as the passengers expand.
- Celebrity baby names go from the peculiar (Apple, Stetson, and Daisy Boo) to the pathetic (Bamboo, Blanket, and Bronx).
- People meticulously tend their virtual crops on Farmville, while their children eat takeout.
- "Breaking News" usually means it happened yesterday.
- The weddings last longer than the marriages.
- Facebook has become a verb and reading has become an ancient art form.

Of Thee I Zing is cultural commentary too funny to ignore, igniting a national conversation long past due. America, your cultural recovery begins here.

Feisty radio sensation Laura Ingraham is tired of the Hollywood Left--and she has all the answers in this pugnacious, funny, and devastating critique of the liberals who hate America.

The Diary of President Barack Obama The White House May 19, 2010 I was going to write about tonight's state dinner for Mexico and the amnesty plan, but we've got a national crisis here! I think somebody's been snooping in this diary! The pages are all wrinkled! And the most personal entries are dog-eared! WHAT THE HELL'S GOING ON HERE? (WASHINGTON, D.C.) On May 20, 2010, Laura Ingraham received a package from an anonymous source that will change the history of the United States and the legacy of President Barack Obama. While retrieving her automobile from the underground garage at the Watergate complex (where she had just enjoyed her weekly pedicure), Ingraham discovered a manila envelope on the hood of her car. When she picked it up, a deep baritone voice called out from a nearby stairwell: "Just read it. You'll know what to do." The shadowy figure then disappeared into the darkness without another word. The envelope contained copies of what appeared to be diary entries written by President Barack Obama, his family, and high-ranking administration officials. Because the "diaries" are so revealing, Ingraham felt compelled to release them to the American public and the citizens of the world. Major media outlets love to describe the president as "no drama Obama," but The Obama Diaries tells a different tale. Through these "diary entries," readers will see past the carefully constructed Obama façade to the administration's true plans to "remake America." In The Obama Diaries, Ingraham hilariously skewers the president and his minions. She takes aim at:

- the cynical "razzle-dazzle" marketing of Obama's radical agenda
- the use of the Obama "brand" and family to obscure Obama's true aims
- Michelle Obama's gardening and anti-obesity initiative; and much more.

Informative and hugely entertaining, The Obama Diaries will inspire both laughter and critical thinking about the future of the nation and the man currently at the helm.

Excerpts from Laura Ingraham's The Obama Diaries

Obama on Sarah Palin: "Hell, doesn't Palin have anything better to do than criticize me? Shouldn't she be back home shooting some endangered wolf species from a helicopter?" (April 9, 2010)

Michelle on being First Lady: "I'll be damned if all this fabulosity is going to go to waste reading Dr. Seuss to snot-nosed kids all day." (January 23, 2009)

Vice President Joe Biden on Michelle Obama: "She's kind of like a black Hillary Clinton. I mean that in a good way." (May 5, 2009)

Obama on his visit to the Vatican: "If I can ingratiate myself with a few more of these red-hats, the pope thing might not be a bad follow-up to the presidency." (July 10, 2009)

If you're like most Americans, you've had enough. You're fed up with sell-out politicians who won't defend our borders; a Hollywood that peddles profanity, pornography, and Al Gore and Rosie O'Donnell as "entertainment"; schools that teach our kids more about condoms than about the Constitution; and snooty judges who think it's their job to legislate for us. But there's a way to stop the madness and return power to the people - where it belongs. Laura Ingraham, the most-listened-to woman in political talk radio, shows us how to take back what is ours. In POWER TO THE PEOPLE she provides a riotous, take-no-prisoners journey through our besieged culture and gives us a battle plan to re-make it anew, the way the Founders intended - strong, patriotic, pro-family, and unapologetically God-fearing.

Americans didn't just go to the polls in 2016. They joined a movement that swept the unlikeliest of candidates, Donald Trump, into the Oval Office. Can he complete his agenda? Or will his opponents in the media, protestor class, and political establishment block his efforts and choke off the movement he represents? In Billionaire at the Barricades, Laura Ingraham gives readers a front row seat to the populist revolution as she witnessed it. She reveals the origins of this movement and its connection to the Trump presidency. She unmaskes the opposition, forecasts the future of the Make America Great Again agenda and offers her own prescriptions for bringing real change to the swamp of Washington. Unlike most of her media colleagues, Ingraham understood Trump's appeal and defied those who wrote his political obituary. Now she confronts the president's critics and responds to those who deny the importance of his America First agenda. With sharp humor and insight she traces the DNA of the populist movement: from Goldwater's 1964 campaign, to Nixon's Silent Majority, to Reagan's smashing electoral victories. Populism fueled the insurgency campaigns of Buchanan and Perot, the election of George W. Bush, and the Tea Party rallies of the Obama presidency. But a political novice—a Manhattan billionaire—proved to be the movement's most vocal champion. This is the inside story of his victory and the fitful struggle to enact his agenda.

In The Hillary Trap, journalist and commentator Laura Ingraham turns her critical eye to the accepted wisdom about Hillary

America's bravest, brashest voice is back?as ferocious and cutting as ever. "Where has six decades of radical, mad-dog liberalism brought us?" Savage asks in his electrifying new book. "I'll tell you where: America is teetering on the cliffs of insanity." Written with the fire, the conviction, and the clear vision of a modern-day prophet, Savage returns with a vengeance in this lightning rod of a book, speaking for all Americans who are fed up and ticked off at the corrosive influence of today's "psycho liberals"?the Democrats, as he calls them. "They're speeding down the pathway of good intentions. Their mantra: Celebrate perversity, embrace ultra-tolerance, pay rape-a-nations (so-called reparations), support affirmative racism, and provide government subsidies for every illegal who sneaks across the border. In their haste to push failed socialist ideals, the libs have placed us on a crash course of total destruction." Even while the heated controversy of his New York Times bestseller, The Savage Nation, still simmers, Michael Savage raises his weapons of matchless wit and moxie again, this time aiming his sights on the liberal assault on our most cherished institutions and taking a stand for our schools, our faith, our police and armed forces, and, most important, our families. It isn't always pretty. You might even at

times become uncomfortable. But as you read on, you'll find these pages always contain the Savage truth. That is how to fight the Enemy Within. Filled with riotous rage and blistering humor, this book inspires as it enflames, encouraging Americans to reclaim our country, our government, our national integrity.

Will Donald J. Trump be America's next president? For some, his brash, politically incorrect campaign is the panacea for the Washington and Wall Street elites that have saddled the country with endless wars, an anemic economy, and growing racial division. Trump's boosters believe he will usher in a Reagan-like era of domestic prosperity at home, and free America from a destructive global web of counterproductive trade agreements and military entanglements abroad. Trump's critics are having none of this. They see not a president in waiting, but a dangerously unstable and inexperienced demagogue — one who threatens U.S. democracy and global peace and security. Rather than being a harbinger of the country's renewal, Trump's candidacy is supposedly destroying the social fabric of America by demonizing minorities, denigrating women, and exacerbating racial differences. To engage with the controversy of the moment, the Fall 2016 Munk Debate will move the motion: Be it resolved, Donald Trump can make America great again . . .

In World War II, American soldiers went overseas to rescue England from the Nazi menace. Now, with America threatened from within by the specter of social democracy, British politician Daniel Hannan returns the favor. *The New Road to Serfdom* is a must-read rallying cry for Tea Party activists, fans of Mark Levin's *Tyranny and Liberty*, and anyone who has seen Hannan's hard-hitting interviews with *Hannity & Colmes*, Neil Cavuto, and Glenn Beck. A former president of the Oxford Conservative Association, and a member of the EU Parliament, Hannan has the insight and experience to help America recapture its distinctive ideals and avoid turning into a socialist state.
