Before installing QlikView Server, you need to consider: If Microsoft IIS is to be used as web server, it must be installed prior to QlikView Server. It is not possible to install QlikView Server to a server that acts as a domain controller. Internet protocol IPv4 or IPv6 is required for installation of QlikView Server.

*Installing QlikView Server ? QlikView*

QlikView is a leading Business Discovery Platform. It is unique in many ways as compared to the traditional BI platforms. As a data analysis tool, it always maintains the relationship between the data and this relationship can be seen visually using colors. It also shows the data that are not related.
