

## Serial Eeprom Cross Reference Guide

Eventually, you will no question discover a further experience and talent by spending more cash. nevertheless when? attain you tolerate that you require to get those every needs behind having significantly cash? Why don't you attempt to get something basic in the beginning? That's something that will lead you to understand even more re the globe, experience, some places, taking into account history, amusement, and a lot more?

It is your unconditionally own get older to enactment reviewing habit. along with guides you could enjoy now is **serial eeprom cross reference guide** below.

## Serial Eeprom Cross Reference Guide

Summary. The Microchip Technology Inc. 24AA128/24LC128/ 24FC128 (24XX128\*) is a 16K x 8 (128 Kbit) Serial Electrically Erasable PROM (EEPROM), capable of operation across a broad voltage range (1.7V to 5.5V). It has been developed for advanced, low-power applications such as personal communications or data acquisition.

## 24LC128 - Memory

The above Cross Reference Search is designed to be used as a guide for basic product information and for reference only. It is not intended to provide comprehensive product specifications and/or feature comparisons.

## Macronix - Cross Reference Search

The Microchip Technology Inc. 25AA640/25LC640 (25XX640\*) is a 64 Kbit Serial Electrically Erasable PROM [EEPROM]. The memory is accessed via a simple Serial Peripheral Interface (SPI) compatible serial bus. The bus signals required are a clock input (SCK) plus separate data in (SI) and data out (SO) lines. Access to the device is controlled through a Chip Select (CS) input.
