Gnostic Mystery - Kindle edition by Davila, Randy ...

The Gnostic Mystery read like a research paper on gnosticism converted into a novel form. Davila's source material is good - I've read most of them - but because he failed to research the other side of the issue, the end result is a book that is overly optimistic about its ability to convince the reader.

The Gnostic Mystery - Hierophant Publishing

This is not a Da Vinci Code type mystery as it is presented on the cover. It is a fiction book that explains what Gnosticism is and presents Davila's theory of the origins of Christianity. The plot and characters are secondary to Davila's theory and explanations of Gnosticism. Again he should have written a nonfiction book containing these ideas.

The Gnostic Mystery is, without a doubt, one of the best books I have read in ages. I read this book in one sitting (something I have not done in ages). While Davila spins a tale that is both intellectually provoking and historically fascinating,his message is one that acts as a soothing balm for all of us who question the true meaning of our spiritual purpose.
