This book is about HCI research in an industrial research setting. It is based on the experiences of two researchers at the IBM T. J. Watson Research Center. Over the last two decades, Drs. John and Clare-Marie Karat

Acces PDF

Toshiba

have conducted HCI research to create innovative usable technology for users across a variety of domains. We begin the book by introducing the reader to the context of industrial research as well as a set of common themes or guidelines to consider in

Conducting HCI
research in practice.
Then case study
examples of HCI
approaches to the
design and
evaluation of usable

technologies In each
of the case studies,
the authors illustrate
and discuss examples
of HCI approaches to
design and
evaluation that
worked well and
those that did not.
They discuss what

Toshiba

was learned over time about different HCI methods in practice, and changes that were made to the HCI tools used over time. The Karats discuss trade-offs and issues related to time, resources, and money and the value derived from different HCI methods in practice.

These decisions are ones that need to be made regularly in the industrial sector.

Similarities and differences with the types of decisions made in this regard in academia will be discussed. The authors then use the context of the three case studies in the three research
